## About MEIDAM 2023

The conference aims to present to participants the latest developments in the fields of dermatology and aesthetics medicine and share advanced and innovative techniques and knowledge in dermatology, dermato-surgery, and aesthetics medicine from around the world.

Through sharing knowledge and information with seniors, juniors, and residents, the program showed an exciting combination of lectures and practical workshops from a variety of schools of thought and backgrounds.

The scientific conference intends to provide an evolving and unique forum for discussions and exchange among researchers and clinicians from all over the world as it facilitates the dissemination of the latest knowledge and expertise derived from research in the fields of dermatology, dermatology surgery, and aesthetics medicine.

The conference serves as an excellent place for networking opportunities with seniors, juniors, and resident colleagues, and creates a platform for coordinating new partnerships that advance, not only the field but the careers of all participants.

# CONFERENCE OVERVIEW

The 8th Middle East International Dermatology & Aesthetic Medicine (MEIDAM) Conference & Exhibition held on 22-24 September 2023 concluded on a high note. The steering committee takes this opportunity to thank all partners and collaborators of the conference for their support and camaraderie throughout our eight-year journey. Your trust in our partnership strengthens our relationship and is the key to fascinating opportunities.

A robust high-quality program was inculcated this year, covering 6 parallel tracks, 50 sessions with 201 lectures given by 292 faculty members from 45 countries participating in the conference. The scientific program offered the most up-to-date topics in dermatology in addition to the demonstration of the latest techniques and procedures through hands on workshops. Our industry partners actively participated in the agenda and were able to present their latest products and technologies to the delegates and faculty alike. A total of 3,310 attendees participated in the 8th MEIDAM Conference & Exhibition.

At MEIDAM, we take it as our responsibility to open doors for the up-and-coming residents and take the initiative by offering them free registrations to attend the conference.

Through MEIDAM, a meeting was set up to introduce our partners and supporters to UNHCR's work in the region and encouraged them to join this endeavor.

# MARKETING – STATICS

## OVERVIEW

The primary objectives of the MEIDAM Conference's social media strategy were to educate and engage specialists and those interested in dermatology and aesthetic medicine with the latest scientific advances in these fields.

The strategy was also designed to showcase the innovative developments and trends presented at the conference / exhibition, fostering an environment of learning and collaboration among attendees. By leveraging various social media platforms, the conference aimed to maximize its reach and enhance the visibility of the conference on a regional and international scale. Through this approach, the conference sought to build a strong digital community, drive attendee engagement, and position itself as a leading platform for knowledge sharing in dermatology and aesthetic medicine.

*Actually everything was nice and i dont have anything to add the event was great. Easy access to location specially the car parking with signs of the conference everything was organized very well. I liked everything. Thank you.*

*Excellent location, good speakers, and excellent topics by speakers. It was amazing and I would like to attend it again next year!*

*It was my first MEIDAM, very good location, nice speakers and topics. I am interested topics in aesthetics medicine, so I found many good topics for my work. Thank you and see you next year!*

*Everything was very good. For more and more success.*

*It will be great again such an opportunity to attend such conference again with more practical lessons, go deeper into the topics we have already examined and meet new speakers for experience exchange.*
